

## 2019 Annual Midwest Crane Count Totals

Beginning in 1976 as the Columbia County Crane Survey, the Annual Midwest Crane Count has grown over four decades to include portions of six states in the upper Midwest, including Illinois, Indiana, Iowa, Michigan, Minnesota and Wisconsin.

We use the crane count data to study Sandhill Crane population trends and new areas where cranes are colonizing. The survey also is a powerful tool for creating awareness about cranes and their wetland habitats. Thank you to all crane count participants and county coordinators for your continuing support!
